Proposed Conference On Local Car Strike Failed Of Results

Strikers Claim Their Rules Did Not Permit Them To Meet With N. Y. C. Representatives Sent Here

NO NEARER FINAL ADJUSTMENT TODAY

The strike of the car workers in the New York Central yards appears to be as far away from settlement now as when it started, although a majority of the strikebreakers in portion in here from New York have left town and a greatly reduced force of men are at work in the yard.

Burgess Callahan and a committee of business men, following the statement of those in charge of the affair on behalf of the men that the company would not give them a hearing, took the matter up directly with the company officials in New York and asked that conditions here be investigated with a view to get some solution of the difficulty in the interest of all parties concerned, including our town and business interests.

The matter from the New York end was handled by Vice President P. C. Crowley who acknowledged receipt of Burgess Callahan's letter and stated that he would comply with its request and send a man here to do as he said "investigate our conditions and make comparison of the wages paid at our other industrial plants with those paid to the car workers."

Representatives of the men were consulted at this point and the action taken and the contents of Mr. Crowley's letter made known to them and the arrangement was supposed to be satisfactory. According to this arrangement Mr. F. W. Brazier, superintendent of rolling stock for the New York Central at Buffalo and east and the man in charge of the wage controversy, came to Clearfield yesterday morning and after an audience with the Burgess agreed with him to meet the committee in charge of the men's interests in conference in the council room at 7:30 last evening.

Burgess Callahan took the matter up with Mr Henderson, the chairman, and asked him to be present with his committee to meet Mr. Brazier at this time, but the committee refused to go into the meeting, Mr. Henderson informing the Burgess that as Mr. Brazier was not empowered to make a settlement nothing would come of such meeting.

At the appointed time Messrs Brazier and Division Supt. Farling and local Supt. Cosgrove arrived at the council room and Mr. Brazier expressed regret at not being able to meet and discuss their differences with the men.

Following this meeting Mr. Brazier took up with the Progress representative a statement or two which appeared in our columns concerning the attitude of the company toward the men here and their refusal to treat with them or give them an audience. He made a statement concerning the matter which is in part as follows:

I want to correct the story to the effect that I would not give the committee an audience of but fifteen minutes; as a matter of fact I met the committee of nine at Mr. Chandler's office in Buffalo at 10 o'clock and the meeting ended at 12:30. Every man on the committee was given a chance to and did talk. They asked for a flat increase of 30 per cent, and I told them that I would have to lay a proposition such as that before the board of directors for action; they wanted an answer by 6 o'clock that evening and I told them that was simply out of the question. This was on Feb. 17th and the strike was ordered on March 1st.

Mr. Brazier said the New York Central pay roll for the car workers in Clearfield amounted to about $150,000 per year. The December pay roll totaled $12,718; January $12,758; and February $10,255. That some of the men were entitled to an increase but many of them were not; that the average rate for the more experienced car or piece workers was 36 cents per hour, the beginner or new man was started at 19 1-2 cents per hour but was given piece work as soon as he acquired knowledge of the work sufficient to warrant such action, that they hoped to be able to so arrange their schedules that the lowest wage on their lines would be 20c per hour.

He paid quite a compliment to the character and intelligence of the striking men here and to this community and stated in closing that they would see that no more strike breakers of the kind first shipped here would be sent in again; that the lines at Buffalo and east, in his charge, employed 5500 men and of this number 2100 were out, the places affected being Buffalo, Clearfield, Avis and Newberry; that if they could not come to an agreement with their men they would take a few experienced men from the different yards where no trouble exists and promote them to the yards where the men walked out and attempt to build up an organization of new workers around these men; he said the company was ready at all times to meet their employees but had no time for and would not meet disreputable professional labor agitators who live off the men's earnings.

Before publishing the foregoing, the article was submitted to Mr. Henderson the local chairman, and he said that Mr. Brazier's statement concerning the meeting at Buffalo was true in part. That is that after dicussing the matter with him and making their demand for a 30 per cent increase Mr. Brazier said he would have to submit that matter to the Board of Directors, and that he would let the matter of the settement of shop rules up to Mr. Chandler, who was authorized to settle those matters with them, but on the very first proposition advanced Mr. Chandler told them he could not settle that queston as he felt the company would not stand for any demand of that kind and the committee then said they could see no reason for going any further.

Relative to last night's meeting Mr. Henderson said he did not understand that his local committee was expected to meet with the company's representatives here; they thought the meeting was to be with the burgess and business men.

He also said that the matter of a settlemen could not be determined locally but would have to be made with the committee of nine representing all the local organizations now on strike. Also that the committee named for this purpose did not contain any professional or disreputable labor agitators but was made up entirely of former employes of the New York Central company and would meet with Mr. Brazier or any other representative of the company any time they saw fit to summon them in conference for purpose of discussion or adjustment.

Sinking of the Healdton Further Widens Breach With Germany And Hastens Preparations

Germany United And Confident of Victory

United Press Dispatch Squelches all Rumors of Revolution

By John Grandens
(By United Press)

Berlin, March 23. — There is no "revolution" in Germany. London, Holland and New York rumors about a "revolution" in Germany are merely entente wishes father to the thought. Germany is united, confident and without signs of any "revolution." German officers are amazed on learning of the entente reports of such a revolution. They believe that the entente is nervous over the Russian revolution as the revolution was a failure to the allies and did not advance their cause any nearer to victory. Not only German officers but German people are entirely satisfied with conditions. They are satisfied with the war and are satisfied to make sacrifices for the sake of victory. The announcement of Chancellor von Bethmann-Hollweg in the Prussian Diet promises liberty to the future people. The retreat of the Germans on the western front is not causing alarm. On the contrary they believe the retreat is one of von Hindenberg's clever strategic moves to save human lives.

THREE UNIVERSITIES IN DEBAT

New Haven, Conn., March 23—The annual triangular debate between representaives of Harvard, Princeton and Yale universities takes place tonight and promises to be one of the notable events of the university year. The question selected for debate is: "Resolved, That after the present war the United States should so far depart from her traditional policies as to participate in the organization of a league of powers to enforce peace." Each institutin is to be represented in the contest by two teams, one to debate the affirmative side of the question abroad and the other to uphold the negative side at home.

A PATRIOTIC DISPLAY

One of the prettiest sights we have seen in a long time and one which attracted the attention and most favorable comment from hundreds of people last night was "Old Glory" flying from the flag staff on the Murray building on Second street, with a searchlight advantageously located on the roof of the building shooting its rays on the flag.

The boys in the Penn Public Service company's office were responsible for the idea and it certainly struck a popular chord.

Secretary of War Baker Orders The Improvement Of Bridges At Pittsburg As Part Of Plan

PITTSBURG LIKELY SITE FOR NEW PLANT

WAR?

American ships sank since February 1.
February 3, Housatonic, no casualties.
February 13, Lyman M. Law, no casualties.
March 12, Algonquin, unwarned, no casualties.
March 16, Vigilancia, unwarned, 15 missing.
March 17, City of Memphis, warned.
March 18, Illinois, no casualties.
March 21, Healdton, unwarned, 21 missing.

Discouragement heaped upon the project yesterday by Secretary Lansing and others probably will prevent any neutral from formally offering mediation services.

Germany's latest affront in the torpedoing without warning of the American tanker Healdton will be answered by the speeding up of preparations for actual hostilities which now seems inevitable.

President Wilson and Secretary Lansing are confident that Germany's recent affront will hasten a clash.

The President met with the cabinet to discuss the progress made by all departments in preparing for hostilities.

Call For Volunteers In Effort To Save Life Of Man

Deserving Gentleman Now Lying In The Hospital Awaiting Sacrifice Of Some Good Samaritan

"HE WAS A STRANGER AND THEY TOOK HIM IN"

WANTED—A man to submit to blood transfusion in an effort to save anothe man's life. Apply Editor of Progress or call on phone H. & C. 176 and applicant will be directed to physician for necessary physical examination. M. 23-1tfr

A most unusual want ad, but of sufficient import to warrant a most prominent position in any newspaper.

A man's life is at stake and his physician is depending on the red blooded manhood of this city to save him.

His days are numbered unless relief in the form of new blood is offered to him by one of his fellow men. His appeal will not be in vain.

In cases similar to this it is most unusual to have to apply for help from the general public but the circumstances surrounding this case are such as to make this course imperative. The afflicted man is suffering from anemia and is about sixty four years of age. He has no near male relatives in the United States. His only brother is in Canada and cannot be reached in time. He has two daughters living in this vicinity but neither is phyically fit to be of any service to their father.

This is a case requiring quick action and nothing would speak any better for the men of Clearfield than to have them come forward as one in this great Good Samaritan undertaking. Any robust heathy man can make the sacrifice without any fear of injury other than a temporary discomfort. The daughters are not well endowed with the goods of this world but are willing to remunerate to the best of their ability the one who is selected to give the necessary aid to the afflicted father.

Don't Forget The Big Game In New Gym

The Weather Will not Have Anything to do With the Game

Don't forget the basket ball game in the new High school gym tonight. This will be the opening game on the new floor and will make it possible for the fans to get their first view of the new gym, which sure is a peach.

The gym will have a seating capacity of 650 and from present indications some 1050 fans will attempt to squeeze into them. So turn out early and avoid the rush.

Williamport High is one of the strongest High school teams in the state and a good game is bound to be the result.

Turn out to this game. The boys are in the hole financially for the basket ball season and hope to go a long way toward making up the deficit at this game.

SON OF LEO TOLSTOY IN VAUDEVILLE

San Francisco, March 23.— Count Lyla Tolstoy, son of the late Count Leo Tolstoy, is scheduled to begin a tryout in vaudeville here day after tomorrow. If he is more successful in this than he was in his attempt to make a speech at Columbia university, he will receive $1,000 a week for forty weeks on the circuit. He will have a tryout of one week to see how he "takes" with the vaudeville patrons. The row the count had with Dr. Butler of Columbia over his socialistic arguments, which resulted in his being forbidden to appear at Columbia, is what got him the vaudeville engagement

Two Spring Openings Held Last Evening

Market Street was the Mecca of Shoppers on Fine Evening

Market street was the mecca for all Clearfield's fair sex last night, the center of attraction and the shrine at which they worshipped was the spring millinery and style show of the A. W. Leonardson company store. Manager Oxley and his staff of competent assistants had worked hard for many days to get everything in proper shape for critical feminine eyes and how well they succeeded was determined by the spontaneous expression of pleased delight heard on every hand from the time the doors were thrown open at 7 o'clock until the last visitor reluctantly retired at 9:30.

The huge store was a picture from front to rear wall, the magnificence of the display, arrangement and exhibit speaking volumes for the taste of the buyer and skill and art of those responsible for the exhibition and arrangement.

Miss Hahn's Opening

Miss Hahn's millinery opening attracted an immense number of visitors last evening, this uptodate establishment being crowded to its capacity during the two and one half hours the display was on. All the latest creations in feminine headgear were most temptingly displayed and one glance about the tastefully decorated parlors was enough to convince milady that she need go no further in her search for the very latest and best in the millinery line.

Every Dog Has His Day But These Not Dog Days

Therefore Sleuth Reilly is Rapidly Increasing Population of Dog Heaven

Clearfield is literally overrun with stray cur dogs these days and people from every section of town are complaining to the Burges and police regarding this condition. Under the law the local authorities have nothing to do with the dog question, the county commissioners and constables being required to solve this problem.

The dog law provides, first that the assessor shall assess all dogs for taxed, collecting said tax from the owner at the time the assessment is made. In case the tax is not paid and the dog properly tagged the constable of the district is required to kill such untagged dog on sight for which execution he receives $1.00 per head.

Constable Reilley of the Second ward unlimbered his heavy artillery this morning and in the course of an hour or two sent four canines to dog heaven and promises his complaining constituents to rid his bailiwick of the rest of it as soon as he can get his eagle eye on them.

A sharpshooter could easily clean up a couple of hundred dollars in a few hours down in the East End any fine summer morning by this means judging by the wail of the long suffering residents down that way.

The attitude of the striking yard men at present is hard to understand. The N. Y. C. sent a man here to thoroughly investigate conditions here with a view of settlement if conditions warranted it. The strikers refused to meet and discuss this important matter wih the represenative of the company which, of course, can have no other effect than to widen the breach and postpone indefinitely the possible amicable settlement.

War and impending wars have no effect whatever on the whims of fashion and style. Spring openings in the various stores about town go on uninterruptedly and the gossip in and about the aisles is far from militaristic though the actions of the ladies in getting to the latest creations are somewhat hostile. The only touch of war noticed at the style shows recently was a certain hat called the reversible—a sort of submarine effect—now you see it and now you don't.

Once in a while we hear that we are not pleasing some one in our views in this column. Bless you, we are not trying to please you or anybody else. We give you our views as we see them. We discuss topics to the best of our ability and in so far as our knowledge allows us but as for trying to please anybody in particular or a whole lot of people in general it is simply out of the question. If you do not think as we do preach the opposite until time and deeds prove one or the other wrong.

The Republican suggests that Mr. Bryan enlist in the submarine chasing fleet and get into action at once. In other words, he tells him to "go chase himself." May he do so and chase so far that he wil lnever return to a land of the free and the home of the brave.

The Spirit has been suggesting practically the same thing about Mitchell Palmer because it looks as though he is going to disrupt the Democrats in their fall campaign. Mitchell will get plenty of help in Clearfield county though all may not be on his side of the fence.

Samuel Gompers comes in for a severe grilling in all the morning papers. It is only another case of a man devoted to one thing and one thing alone in this world. The out and out laborman becomes a radical in that direction. The out and out capitalist thinks only in terms of dollars and dividends. Neither is a good guide to the ultimate destination of a people or a nation and neither is fit for service on any important national committee. Their view is narrow and selfish. They cannot represent even their own interests without prejudicing disinterested people by their actions. Gompers now has a sentence hanging over his head which he has never served owing to his position. He is in a poor position, in deed, to cry favoritism.

It is seldom indeed that so great a chance for service to brother man presents itself with so much force as today when an elderly man lies on what is probably his last bed with only one chance for recovery and that depending entirely on the sacrifice of some other man. In these columns we have had a great deal to say about man's dependance on man and the duty we owe to one another. We did not think that we would ever be called upon to make plea that might mean a life but the problem has been put up to us and our columns thrown wide open to bring to the attention of the healthy, duty realizing men of this community the needs of one who is afflicted with a disease for which there is no cure except the rich, pure red corpuscles of a brother man. Science has perfected the art of blood transfusion and science is ready to do its part toward the restoration of health to the afflicted man. Only the man is needed to reap the benefit of years of scientific study.

"I got Tanlac. The results were wonderful! I began to feel better right away and to look at me now you'd never know I had been so sick.

Bessie Alden, Mary's daughter, comes to the city and later marries Dick Grant, an employee in Gaynor's office. Dick is refused a raise in wages. Finally he takes a certain sum out of the cash box each week, telling Bessie he has received a raise.

On being informed of the theft, Gaynor goes to Dick's house and is thanked by Bessie for the raise and tells him what it has done for them, also that they have named their little child for him. This show of affection overwhelms him and he fixes up the theft and then goes to Mary Alden to find happiness for himself.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

This Boy Isn't "Dosed" For Croup or Colds

His Mother Says—"When the Children are Croupy I Just Apply a Good Application of Vick's VapoRub Salve at Bedtime, and go to Sleep, Sure that the Little Ones Will Be All Right."

Mrs. M. Z. Smith, 220 Wood Street, Johnstown, Pa., is one of the many mothers who have found the Southern remedy—Vick's VapoRub Salve, much better than internal medicines. Mrs Smith writes—

"I find your VapoRub the finest remedy for croup and colds that I have ever used, and now we would not be without it, as we have two children and they are both subject to croup. I use VapoRub as a 'stitch in time'—put on an application at night—then go to bed and rest assured that the little ones are all right for the night."

In the South Vick's VapoRub is universally used as the "Bodyguard" in the home against all forms of cold troubles, from head or chest colds, sore throat, bronchitis, down to deep chest colds or incipient pneumonia. It is applied externally—is therefore perfectly harmless—and relieves by inhalation as a vapor and by absorption through the skin.

Three sizes, 25c, 50c, or $1.00. At all druggists.

MY TIRED FEEN ACHED FOR "TIZ"

Let your sore, swollen, aching feet spread out in a bath of "Tiz"

Just take your shoes off and then put those weary, corn-pinched, aching, burning, foot-pestering, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy, they'll lookup at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead, all tired out, just use "Tiz." It's grand for sore feet. Your feet will dance with joy as soon as you find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all poisonous exudations which puff up your feet and cause foot torture.

Get a 25-cent box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

Proposed Conference On Local Car Strike Failed Of Results

Strikers Claim Their Rules Did Not Permit Them To Meet With N. Y. C. Representatives Sent Here

NO NEARER FINAL ADJUSTMENT TODAY

The strike of the car workers in the New York Central yards appears to be as far away from settlement now as when it started, although a majority of the strikebreakers in portion in here from New York have left town and a greatly reduced force of men are at work in the yard.

Burgess Callahan and a committee of business men, following the statement of those in charge of the affair on behalf of the men that the company would not give them a hearing, took the matter up directly with the company officials in New York and asked that conditions here be investigated with a view to get some solution of the difficulty in the interest of all parties concerned, including our town and business interests.

The matter from the New York end was handled by Vice President P. C. Crowley who acknowledged receipt of Burgess Callahan's letter and stated that he would comply with its request and send a man here to do as he said "investigate our conditions and make comparison of the wages paid at our other industrial plants with those paid to the car workers."

Representatives of the men were consulted at this point and the action taken and the contents of Mr. Crowley's letter made known to them and the arrangement was supposed to be satisfactory. According to this arrangement Mr. F. W. Brazier, superintendent of rolling stock for the New York Central at Buffalo and east and the man in charge of the wage controversy, came to Clearfield yesterday morning and after an audience with the Burgess agreed with him to meet the committee in charge of the men's interests in conference in the council room at 7:30 last evening.

Burgess Callahan took the matter up with Mr Henderson, the chairman, and asked him to be present with his committee to meet Mr. Brazier at this time, but the committee refused to go into the meeting, Mr. Henderson informing the Burgess that as Mr. Brazier was not empowered to make a settlement nothing would come of such meeting.

At the appointed time Messrs Brazier and Division Supt. Farling and local Supt. Cosgrove arrived at the council room and Mr. Brazier expressed regret at not being able to meet and discuss their differences with the men.

Following this meeting Mr. Brazier took up with the Progress representative a statement or two which appeared in our columns concerning the attitude of the company toward the men here and their refusal to treat with them or give them an audience. He made a statement concerning the matter which is in part as follows:

I want to correct the story to the effect that I would not give the committee an audience of but fifteen minutes; as a matter of fact I met the committee of nine at Mr. Chandler's office in Buffalo at 10 o'clock and the meeting ended at 12:30. Every man on the committee was given a chance to and did talk. They asked for a flat increase of 30 per cent, and I told them that I would have to lay a proposition such as that before the board of directors for action; they wanted an answer by 6 o'clock that evening and I told them that was simply out of the question. This was on Feb. 17th and the strike was ordered on March 1st.

Mr. Brazier said the New York Central pay roll for the car workers in Clearfield amounted to about $150,000 per year. The December pay roll totaled $12,718; January $12,758; and February $10,255. That some of the men were entitled to an increase but many of them were not; that the average rate for the more experienced car or piece workers was 36 cents per hour, the beginner or new man was started at 19 1-2 cents per hour but was given piece work as soon as he acquired knowledge of the work sufficient to warrant such action, that they hoped to be able to so arrange their schedules that the lowest wage on their lines would be 20c per hour.

He paid quite a compliment to the character and intelligence of the striking men here and to this community and stated in closing that they would see that no more strike breakers of the kind first shipped here would be sent in again; that the lines at Buffalo and east, in his charge, employed 5500 men and of this number 2100 were out, the places affected being Buffalo, Clearfield, Avis and Newberry; that if they could not come to an agreement with their men they would take a few experienced men from the different yards where no trouble exists and promote them to the yards where the men walked out and attempt to build up an organization of new workers around these men; he said the company was ready at all times to meet their employees but had no time for and would not meet disreputable professional labor agitators who live off the men's earnings.

Before publishing the foregoing, the article was submitted to Mr. Henderson the local chairman, and he said that Mr. Brazier's statement concerning the meeting at Buffalo was true in part. That is that after dicussing the matter with him and making their demand for a 30 per cent increase Mr. Brazier said he would have to submit that matter to the Board of Directors, and that he would let the matter of the settement of shop rules up to Mr. Chandler, who was authorized to settle those matters with them, but on the very first proposition advanced Mr. Chandler told them he could not settle that queston as he felt the company would not stand for any demand of that kind and the committee then said they could see no reason for going any further.

Relative to last night's meeting Mr. Henderson said he did not understand that his local committee was expected to meet with the company's representatives here; they thought the meeting was to be with the burgess and business men.

He also said that the matter of a settlemen could not be determined locally but would have to be made with the committee of nine representing all the local organizations now on strike. Also that the committee named for this purpose did not contain any professional or disreputable labor agitators but was made up entirely of former employes of the New York Central company and would meet with Mr. Brazier or any other representative of the company any time they saw fit to summon them in conference for purpose of discussion or adjustment.

Sinking of the Healdton Further Widens Breach With Germany And Hastens Preparations

Germany United And Confident of Victory

United Press Dispatch Squelches all Rumors of Revolution

By John Grandens
(By United Press)

Berlin, March 23. — There is no "revolution" in Germany. London, Holland and New York rumors about a "revolution" in Germany are merely entente wishes father to the thought. Germany is united, confident and without signs of any "revolution." German officers are amazed on learning of the entente reports of such a revolution. They believe that the entente is nervous over the Russian revolution as the revolution was a failure to the allies and did not advance their cause any nearer to victory. Not only German officers but German people are entirely satisfied with conditions. They are satisfied with the war and are satisfied to make sacrifices for the sake of victory. The announcement of Chancellor von Bethmann-Hollweg in the Prussian Diet promises liberty to the future people. The retreat of the Germans on the western front is not causing alarm. On the contrary they believe the retreat is one of von Hindenberg's clever strategic moves to save human lives.

THREE UNIVERSITIES IN DEBAT

New Haven, Conn., March 23—The annual triangular debate between representaives of Harvard, Princeton and Yale universities takes place tonight and promises to be one of the notable events of the university year. The question selected for debate is: "Resolved, That after the present war the United States should so far depart from her traditional policies as to participate in the organization of a league of powers to enforce peace." Each institutin is to be represented in the contest by two teams, one to debate the affirmative side of the question abroad and the other to uphold the negative side at home.

A PATRIOTIC DISPLAY

One of the prettiest sights we have seen in a long time and one which attracted the attention and most favorable comment from hundreds of people last night was "Old Glory" flying from the flag staff on the Murray building on Second street, with a searchlight advantageously located on the roof of the building shooting its rays on the flag.

The boys in the Penn Public Service company's office were responsible for the idea and it certainly struck a popular chord.

Secretary of War Baker Orders The Improvement Of Bridges At Pittsburg As Part Of Plan

PITTSBURG LIKELY SITE FOR NEW PLANT

WAR?

American ships sank since February 1.
February 3, Housatonic, no casualties.
February 13, Lyman M. Law, no casualties.
March 12, Algonquin, unwarned, no casualties.
March 16, Vigilancia, unwarned, 15 missing.
March 17, City of Memphis, warned.
March 18, Illinois, no casualties.
March 21, Healdton, unwarned, 21 missing.

Discouragement heaped upon the project yesterday by Secretary Lansing and others probably will prevent any neutral from formally offering mediation services.

Germany's latest affront in the torpedoing without warning of the American tanker Healdton will be answered by the speeding up of preparations for actual hostilities which now seems inevitable.

President Wilson and Secretary Lansing are confident that Germany's recent affront will hasten a clash.

The President met with the cabinet to discuss the progress made by all departments in preparing for hostilities.

Call For Volunteers In Effort To Save Life Of Man

Deserving Gentleman Now Lying In The Hospital Awaiting Sacrifice Of Some Good Samaritan

"HE WAS A STRANGER AND THEY TOOK HIM IN"

WANTED—A man to submit to blood transfusion in an effort to save anothe man's life. Apply Editor of Progress or call on phone H. & C. 176 and applicant will be directed to physician for necessary physical examination. M. 23-1tfr

A most unusual want ad, but of sufficient import to warrant a most prominent position in any newspaper.

A man's life is at stake and his physician is depending on the red blooded manhood of this city to save him.

His days are numbered unless relief in the form of new blood is offered to him by one of his fellow men. His appeal will not be in vain.

In cases similar to this it is most unusual to have to apply for help from the general public but the circumstances surrounding this case are such as to make this course imperative. The afflicted man is suffering from anemia and is about sixty four years of age. He has no near male relatives in the United States. His only brother is in Canada and cannot be reached in time. He has two daughters living in this vicinity but neither is phyically fit to be of any service to their father.

This is a case requiring quick action and nothing would speak any better for the men of Clearfield than to have them come forward as one in this great Good Samaritan undertaking. Any robust heathy man can make the sacrifice without any fear of injury other than a temporary discomfort. The daughters are not well endowed with the goods of this world but are willing to remunerate to the best of their ability the one who is selected to give the necessary aid to the afflicted father.

Don't Forget The Big Game In New Gym

The Weather Will not Have Anything to do With the Game

Don't forget the basket ball game in the new High school gym tonight. This will be the opening game on the new floor and will make it possible for the fans to get their first view of the new gym, which sure is a peach.

The gym will have a seating capacity of 650 and from present indications some 1050 fans will attempt to squeeze into them. So turn out early and avoid the rush.

Williamport High is one of the strongest High school teams in the state and a good game is bound to be the result.

Turn out to this game. The boys are in the hole financially for the basket ball season and hope to go a long way toward making up the deficit at this game.

He will have a tryout of one week to see how he "takes" with the vaudeville patrons. The row the count had with Dr. Butler of Columbia over his socialistic arguments, which resulted in his being forbidden to appear at Columbia, is what got him the vaudeville engagement

Two Spring Openings Held Last Evening

Market Street was the Mecca of Shoppers on Fine Evening

Market street was the mecca for all Clearfield's fair sex last night, the center of attraction and the shrine at which they worshipped was the spring millinery and style show of the A. W. Leonardson company store. Manager Oxley and his staff of competent assistants had worked hard for many days to get everything in proper shape for critical feminine eyes and how well they succeeded was determined by the spontaneous expression of pleased delight heard on every hand from the time the doors were thrown open at 7 o'clock until the last visitor reluctantly retired at 9:30.

The huge store was a picture from front to rear wall, the magnificence of the display, arrangement and exhibit speaking volumes for the taste of the buyer and skill and art of those responsible for the exhibition and arrangement.

Miss Hahn's Opening

Miss Hahn's millinery opening attracted an immense number of visitors last evening, this uptodate establishment being crowded to its capacity during the two and one half hours the display was on. All the latest creations in feminine headgear were most temptingly displayed and one glance about the tastefully decorated parlors was enough to convince milady that she need go no further in her search for the very latest and best in the millinery line.

Every Dog Has His Day But These Not Dog Days

Therefore Sleuth Reilly is Rapidly Increasing Population of Dog Heaven

Clearfield is literally overrun with stray cur dogs these days and people from every section of town are complaining to the Burgess and police regarding this condition. Under the law the local authorities have nothing to do with the dog question, the county commissioners and constables being required to solve this problem.

The dog law provides, first that the assessor shall assess all dogs for taxed, collecting said tax from the owner at the time the assessment is made. In case the tax is not paid and the dog properly tagged the constable of the district is required to kill such untagged dog on sight for which execution he receives $1.00 per head.

Constable Reilley of the Second ward unlimbered his heavy artillery this morning and in the course of an hour or two sent four canines to dog heaven and promises his complaining constituents to rid his bailiwick of the pests as soon as he can get his eagle eye on them.

A sharpshooter could easily clean up a couple of hundred dollars in a few hours down in the East End any fine evening coming by this means judging by the wail of the long suffering residents down that way.

The attitude of the striking yard men at present is hard to understand. The N. Y. C. sent a man here to thoroughly investigate conditions here with a view of settlement if conditions warranted it. The strikers refused to meet and discuss this important matter wih the represenative of the company which, of course, can have no other effect than to widen the breach and postpone indefinitely the possible amicable settlement.

War and impending wars have no effect whatever on the whims of fashion and style. Spring openings in the various stores about town go on uninterruptedly and the gossip in and about the aisles is far from militaristic though the actions of the ladies in getting to the latest creations are somewhat hostile. The only touch of war noticed at the style shows recently was a certain hat called the reversible—a sort of submarine effect—now you see it and now you don't.

Once in a while we hear that we are not pleasing some one in our views in this column. Bless you, we are not trying to please you or anybody else. We give you our views as we see them. We discuss topics to the best of our ability and in so far as our knowledge allows us but as for trying to please anybody in particular or a whole lot of people in general it is simply out of the question. If you do not think as we do preach the opposite until time and deeds prove one or the other wrong.

The Republican suggests that Mr. Bryan enlist in the submarine chasing fleet and get into action at once. In other words, he tells him to "go chase himself." May he do so and chase so far that he wil lnever return to a land of the free and the home of the brave.

The Spirit has been suggesting practically the same thing about Mitchell Palmer because it looks as though he is going to disrupt the Democrats in their fall campaign. Mitchell will get plenty of help in Clearfield county though all may not be on his side of the fence.

Samuel Gompers comes in for a severe grilling in all the morning papers. It is only another case of a man devoted to one thing and one thing alone in this world. The out and out laborman becomes a radical in that direction. The out and out capitalist thinks only in terms of dollars and dividends. Neither is a good guide to the ultimate destination of a people or a nation and neither is fit for service on any important national committee. Their view is narrow and selfish. They cannot represent even their own interests without prejudicing disinterested people by their actions. Gompers now has a sentence hanging over his head which he has never served owing to his position. He is in a poor position, in deed, to cry favoritism.

It is seldom indeed that so great a chance for service to brother man presents itself with so much force as today when an elderly man lies on what is probably his last bed with only one chance for recovery and that depending entirely on the sacrifice of some other man. In these columns we have had a great deal to say about man's dependance on man and the duty we owe to one another. We did not think that we would ever be called upon to make plea that might mean a life but the problem has been put up to us and our columns thrown wide open to bring to the attention of the healthy, duty realizing men of this community the needs of one who is afflicted with a disease for which there is no cure except the rich, pure red corpuscles of a brother man. Science has perfected the art of blood transfusion and science is ready to do its part toward the restoration of health to the afflicted man. Only the man is needed to reap the benefit of years of scientific study.

On being informed of the theft, Gaynor goes to Dick's house and is thanked by Bessie for the raise and tells him what it has done for them, also that they have named their little child for him. This show of affection overwhelms him and he fixes up the theft and then goes to Mary Alden to find happiness for himself.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

This Boy Isn't "Dosed" For Croup or Colds

His Mother Says—"When the Children are Croupy I Just Apply a Good Application of Vick's VapoRub Salve at Bedtime, and go to Sleep, Sure that the Little Ones Will Be All Right."

Mrs. M. Z. Smith, 220 Wood Street, Johnstown, Pa., is one of the many mothers who have found the Southern remedy—Vick's VapoRub Salve, much better than internal medicines. Mrs Smith writes—

"I find your VapoRub the finest remedy for croup and colds that I have ever used, and now we would not be without it, as we have two children and they are both subject to croup. I use VapoRub as a 'stitch in time'—put on an application at night—then go to bed and rest assured that the little ones are all right for the night."

In the South Vick's VapoRub is universally used as the "Bodyguard" in the home against all forms of cold troubles, from head or chest colds, sore throat, bronchitis, down to deep chest colds or incipient pneumonia. It is applied externally—is therefore perfectly harmless—and relieves by inhalation as a vapor and by absorption through the skin.

Three sizes, 25c, 50c, or $1.00. At all druggists.

MY TIRED FEEN ACHED FOR "TIZ"

Let your sore, swollen, aching feet spread out in a bath of "Tiz"

Just take your shoes off and then put those weary, sore, corn-pinched, aching, burning corn-pestered bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy. They'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead, all tired out, just use "Tiz." It's grand for sweaty, smelly feet. Your feet will dance with joy as soon as you find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all poisonous exudations which puff up your feet and cause foot torture.

Get a 25-cent box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.
